SITE DEVELOPMENT & CONSTRUCTION PLAN INFORMATION REQUIREMENTS

Plan Requirements within the City Limits

STAFF	APPLICANT	Check all that apply
<input type="checkbox"/>	<input type="checkbox"/>	All sheets shall have a title block including the proposed name of the project or subdivision, the name and address of the owner and the land planner, engineer, architect or surveyor responsible for the plan, the scale of the drawing, both written and graphic scale, the date the drawing was prepared, total site acreage, and the location of the property according to the abstract and survey records of the county
<input type="checkbox"/>	<input type="checkbox"/>	<p>Cover Sheet Including the following information:</p> <ul style="list-style-type: none"> • A vicinity or location map that shows the location of the proposed development within the city and in relationship to existing roadways • Sheet Index • Statement with a description of what portion of the project, if any, is located in a FEMA designated floodplain and FEMA panel number. • Statement of proximity to the Edwards Aquifer Contributing Zone and/or Recharge Zone. • Water and Wastewater service providers • Name who will be responsible for operation and maintenance of Stormwater Utilities and Ponds. • Zoning Category • Legal Description of Property • Name of Watershed • The following note: “All responsibility for the adequacy of these plans remains with the engineer who prepared them. In approving these plans, the City must rely upon the adequacy of work of the design engineer.” • The following note: “A Water Quality BMP Maintenance Plan has been prepared for this development and is recorded in document # _____, Public Records of Hays County, Texas.” • Provide the following below the City Signature blocks: “City of Dripping Springs Development Permit # _____”
<input type="checkbox"/>	<input type="checkbox"/>	The most current property plat or boundary survey limits of the tract and each proposed lot or Unit, and scale distances with north clearly indicated.
<input type="checkbox"/>	<input type="checkbox"/>	Existing conditions plan including names of adjacent additions or subdivisions, or the name of the owners of record and recording information for adjacent parcels of unplatted land, including parcels on the other sides of roads and creeks existing zoning and existing and proposed uses on adjacent land; the location, width and names of all existing or platted streets or other public ways within or adjacent to the tract; driveway locations; any existing easements, with recording information; existing buildings; railroad rights-of-way; topography with contours at two-foot intervals with existing drainage channels or creeks, including the 100-year floodplain and water quality buffer zones, if applicable;

		any other important natural features such as rock outcroppings, caves and wildlife habitats; and all substantial natural vegetation
<input type="checkbox"/>	<input type="checkbox"/>	The layout and width, including right-of-way lines and curblines, of existing and proposed thoroughfares, collector streets and intersections, and specific configuration of proposed streets, lots and blocks, proposed driveways, showing driveway widths and distances between driveways, and proposed median openings and left turn lanes on future divided roadways. Existing and planned driveways on the opposite side of divided roadways must also be shown for coordination and sharing of future median openings
<input type="checkbox"/>	<input type="checkbox"/>	Provide a roadway classification summary table for all public streets within the development as defined by Hays County Development Regulations Chapter 721. Include required pavement width and right-of-way width in the table.
<input type="checkbox"/>	<input type="checkbox"/>	Provide proposed pavement sections with full summary of street section material requirements. Include Geotechnical Engineer recommendations for material specifications for each material (HMAC, Base, Fill, Subgrade) including compaction requirements and treatment of existing soils.
<input type="checkbox"/>	<input type="checkbox"/>	To fulfill driveway permit requirements, show all existing driveways within 150-ft of the property. Show offset distances to nearest driveways. Refer to [Subdivision Ord. 24.6] and [Hays County Development Regs, Table 721.02] for driveway spacing requirements.
<input type="checkbox"/>	<input type="checkbox"/>	Specific locations and footprints of buildings, including but not limited to proposed nonresidential and residential densities; building heights; square footages, which for multi-tenant or multi-purpose buildings must show square footage for each intended use; massing, orientation, loading and service areas, , recycling containers, compactors and dumpster enclosures, including proposed screening, pedestrian walkways, and parking areas including parking ratio calculations; any proposed sites for parks, schools, public facilities, public or private open space; floodplains and drainageways; all proposed and existing utilities and easements; drainage structures; retention/detention ponds with proposed aesthetic treatments; screening walls; fences; signage, if applicable; fire lanes and fire hydrants, lighting, if applicable; visibility easements; and other pertinent development-related features.
<input type="checkbox"/>	<input type="checkbox"/>	Identify existing and proposed impervious cover and provide impervious cover calculations. Break out paving, buildings, sidewalks, etc.
<input type="checkbox"/>	<input type="checkbox"/>	Signing and striping layout plan.
<input type="checkbox"/>	<input type="checkbox"/>	Landscape plan showing turf areas, tree types and sizes, screening walls, ornamental plantings, planting schedule, including species, planted height, spacing, container and caliper size, numbers of each plant material, any existing wooded areas, trees to be planted, and irrigation plans.
<input type="checkbox"/>	<input type="checkbox"/>	Complete erosion and sedimentation control plan as required by section 28.04.017 . <u>Include</u> Proposed strategies for tree preservation, showing individual trees or tree masses that will be preserved, and the techniques that will be used to protect them during construction
<input type="checkbox"/>	<input type="checkbox"/>	General notes sheet including required notes from applicable regulatory jurisdictions as well as general construction notes, sequence of construction, erosion control and tree protection notes.
<input type="checkbox"/>	<input type="checkbox"/>	Grading plan showing existing and proposed grades and contours at contour intervals no more than 2ft. Show spot elevations at tie-ins to existing grades. Show flow directional arrows

<input type="checkbox"/>	<input type="checkbox"/>	Drainage plans (including existing and developed drainage area maps and calculations). Identify points of analysis (POA) where storm flow leaves the site and provide a direct comparison between existing and developed flow at the POAs. Provide details and sections of all proposed ponds including water surface elevations as well as stage volume discharge table. Provide profiles for all storm pipe and channels with HGLs, slope, velocity and flow for 25-yr and 100-yr storm.
<input type="checkbox"/>	<input type="checkbox"/>	Water quality control plans and calculations. Include a summary table demonstrating the required load removal vs the provided load removal for water quality facilities.
<input type="checkbox"/>	<input type="checkbox"/>	Utility sheets including existing and proposed water and wastewater facilities and easements.
<input type="checkbox"/>	<input type="checkbox"/>	Construction Details including standard or custom erosion control, drainage, traffic control, sidewalk, paving, curb, retaining wall and utility details applicable to the project.
Plan Requirements within the ETJ		
<input type="checkbox"/>	<input type="checkbox"/>	All sheets shall have a title block including the proposed name of the project or subdivision, the name and address of the owner and the land planner, engineer, architect or surveyor responsible for the plan, the scale of the drawing, both written and graphic scale, the date the drawing was prepared, total site acreage, and the location of the property according to the abstract and survey records of the county
<input type="checkbox"/>	<input type="checkbox"/>	Cover Sheet Including the following information: <ul style="list-style-type: none"> • A vicinity or location map that shows the location of the proposed development within the ETJ and in relationship to existing roadways • Sheet Index • Statement with a description of what portion of the project, if any, is located in a FEMA designated floodplain and FEMA panel number. • Statement of proximity to the Edwards Aquifer Contributing Zone and/or Recharge Zone. • Water and Wastewater service providers • Name who will be responsible for operation and maintenance of Stormwater Utilities and Ponds. • Zoning Category – N/A ETJ • Legal Description of Property • Name of Watershed • The following note: “All responsibility for the adequacy of these plans remains with the engineer who prepared them. In approving these plans, the City must rely upon the adequacy of work of the design engineer.” • The following note: “A Water Quality BMP Maintenance Plan has been prepared for this development and is recorded in document # _____, Public Records of Hays County, Texas.” • Provide the following below the City Signature blocks: “City of Dripping Springs Development Permit # _____”
<input type="checkbox"/>	<input type="checkbox"/>	The most current plat or boundary survey limits of the tract and each proposed lot, and scale distances with north clearly indicated

<input type="checkbox"/>	<input type="checkbox"/>	Existing conditions plan including names of adjacent additions or subdivisions, or the name of the owners of record and recording information for adjacent parcels of unplatted land, including parcels on the other sides of roads and creeks, location, width and names of all existing or platted streets or other public ways within or adjacent to the tract; any existing easements, with recording information; existing buildings; railroad rights-of-way; topography with contours at two-foot intervals with existing drainage channels or creeks, including the 100-year floodplain, if applicable; any other important natural features such as rock outcroppings, caves and wildlife habitats; and all substantial natural vegetation
<input type="checkbox"/>	<input type="checkbox"/>	The layout and width, including right-of-way lines and curb lines, of existing and proposed thoroughfares, collector streets and intersections, and specific configuration of proposed streets, lots and blocks, proposed driveways, showing driveway widths and distances between driveways, and proposed median openings and left turn lanes on future divided roadways. Existing and planned driveways on the opposite side of divided roadways must also be shown for coordination and sharing of future median openings
<input type="checkbox"/>	<input type="checkbox"/>	Provide a roadway classification summary table for all public streets within the development as defined by Hays County Development Regulations Chapter 721. Include required pavement width and right-of-way width in the table.
<input type="checkbox"/>	<input type="checkbox"/>	Provide proposed pavement sections with full summary of street section material requirements. Include Geotechnical Engineer recommendations for material specifications for each material (HMAC, Base, Fill, Subgrade) including compaction requirements and treatment of existing soils.
<input type="checkbox"/>	<input type="checkbox"/>	Specific locations and footprints of buildings, including but not limited to proposed nonresidential and residential densities; square footages, orientation, loading and service areas, including pedestrian walkways, and parking areas; floodplains and drainageways; all proposed and existing utilities and easements; drainage structures; retention/detention ponds with proposed aesthetic treatments; fences; signage, if applicable; fire lanes and fire hydrants; lighting, if applicable; visibility easements; and other pertinent development-related features
<input type="checkbox"/>	<input type="checkbox"/>	Identify existing and proposed impervious cover and provide impervious cover calculations. Break out paving, buildings, sidewalks, etc.
<input type="checkbox"/>	<input type="checkbox"/>	Signing and striping layout plan.
<input type="checkbox"/>	<input type="checkbox"/>	Complete erosion and sedimentation control plan as required by section 28.04.017 .
<input type="checkbox"/>	<input type="checkbox"/>	General notes sheet including required notes from applicable regulatory jurisdictions as well as general construction notes, sequence of construction, erosion control and tree protection notes.
<input type="checkbox"/>	<input type="checkbox"/>	Grading plan showing existing and proposed grades and contours at contour intervals no more than 2ft. Show spot elevations at tie-ins to existing grades. Show flow directional arrows
<input type="checkbox"/>	<input type="checkbox"/>	Drainage plans (including existing and developed drainage area maps and calculations). Identify points of analysis (POA) where storm flow leaves the site and provide a direct comparison between existing and developed flow at the POAs. Provide details and sections of all proposed ponds including water surface elevations as well as stage volume discharge table. Provide profiles for

		all storm pipe and channels with HGLs, slope, velocity and flow for 25-yr and 100-yr storm.
<input type="checkbox"/>	<input type="checkbox"/>	Water quality control plans and calculations. Include a summary table demonstrating the required load removal vs the provided load removal for water quality facilities.
